

Invesco India Feeder - Invesco Pan European Equity Fund

(An open ended fund of fund scheme investing in Invesco Pan European Equity Fund)

Suitable for investors who are seeking*

- capital appreciation over long term • investment in units of Invesco Pan European Equity Fund, an overseas equity fund

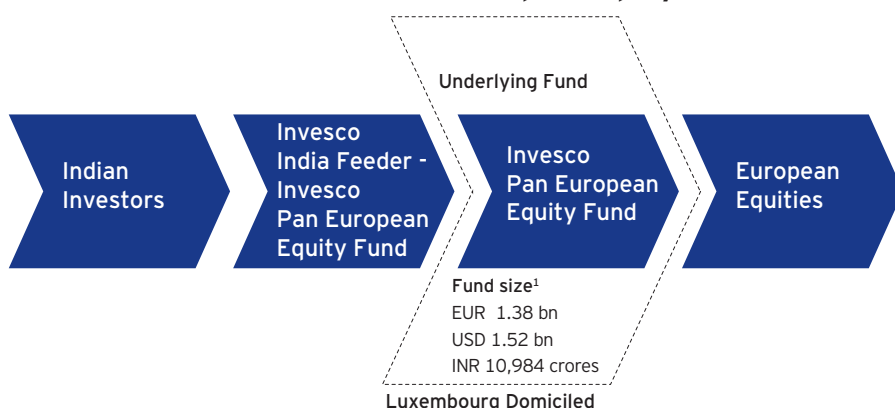

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

Why investing overseas can make sense?

- **Diversification** - One of the ways to seek portfolio diversification is to invest across geographies. Investing in countries other than the home country can help to reduce the risk associated with the investment in a single country (risk is spread across companies, sectors and countries), and can also provide an opportunity to tap growth potential of different geographic regions.
- **Exposure to companies not available in India:** - Investors can gain exposure to world class companies having global presence and run by quality management companies.
- **Low correlation:** - Investing in low correlated assets helps to protect a portfolio from volatility and improves risk/reward characteristic of a portfolio. Historically, European equity markets have exhibited low correlation with Indian equity market and provide an opportunity for diversification.

- **Investment Philosophy**
 - Valuation is the key determinant of future returns over the longer term
 - Market inefficiencies create valuation opportunities
 - As active fund managers we look to take advantage of these opportunities
 - We are agnostic with regard to investment style, country or sector positioning
 - We are reference index aware not reference index driven
 - 'Bottom-up' and 'Top-down' factors both add value
