*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

RISKOMETER

PSU jewels

'Ratna' or 'Jewel' is the term used to refer to someone or something invaluable or priceless. The term was popularized by the great Mughal Emperor Akbar who coined the term 'Navratna' meaning Nine Jewels to honour nine of his most trusted nobles who excelled in their respective services to the Emperor.

The contemporary India has adopted the terms, 'Maharatna', 'Navratna' & 'Miniratna' to honour select PSUs that have excelled in their respective businesses. Positioned in the core sectors of the economy, these companies, with their sovereign parentage, carry huge potential to unlock their value in the long run on the back of progressive reforms. Some of these PSUs in fact enjoy virtual monopoly in the core sectors of the economy making them almost indispensable. Invesco India PSU Equity Fund is a gateway to own not only the existing well-established PSUs but also the 'Miniratnas' that are gradually getting ready to break into the big league.

An ideal opportunity to own some of the country's precious (PSU) jewels that carry tremendous potential to unlock their inherent value & thus create substantial wealth over the long term.

PSUs - Tend to gain on back of Government's resolve to move ahead with reforms, divestment, privatization etc.

- **Government compulsions towards divestiture** - Twin objective of addressing revenue shortfall while keeping fiscal in check has brought back aggressive divestment proposition back to the table. Government has commenced process of identifying strategic partners and has called for bids from consultants to help in divestiture of important assets. The emphasis is more on governance than ownership.
- **Beneficiaries of Government Policy Action** - Core sectors, that are largely cyclical in nature, are increasingly benefiting from Government Policy Actions. For instance, greater autonomy to Oil Marketing Companies (OMCs), increased efficiency in the banking sector, empowering increased production in the energy sector etc. are largely positive for the companies in the PSU space
- **Operating in 'Cyclical' Core sectors** - A majority of PSUs operate in the 'Cyclical' core sectors of the economy, which are expected to gain significantly in an economic upturn
- **Better Capital Allocation** - More recently, PSUs have begun to utilize capital more efficiently. Example: return of excess capital to shareholders through share buy-back & dividends
- **Valuations** - PSU stocks are presently reasonably valued relative to the broad market and their own historic averages
- **Corporate Tax Cut** - Many PSU companies stand to benefit from the recent corporate tax cut

Invesco India PSU Equity Fund

Portfolio Construction Guidelines

- The fund follows a bottom-up investment approach to select PSU stocks.
- Owns PSU stocks which are well researched internally
- It strives to select fundamentally sound PSUs that carry the potential of promising growth and competence to deliver superior returns over the long term.
- The fund has the flexibility to hold companies which subsequently may get privatized or where the Government shareholding gets reduced through the process of divestment
- It does not observe any market capitalization bias and is style neutral

Fund Suitability

- Investors who wish to share ownership in some of the country's leading public sector giants.
- An ideal investment option for those who want to tap the inherent growth potential of public sector companies.
- Suitable for those looking to diversify their investments beyond the core equity portfolio.
