In accordance with Regulation 35(5) of SEBI MF Regulations read with SEBI Circular dated February 27, 2025, the AMC shall deploy the funds collected during NFO period within 30 business days from the date of allotment of units. In exceptional cases, if the AMC is not able to deploy within 30 business days, then the reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC. The Investment Committee upon examination of root cause for delay in deployment, may extend the timeline, either partially or fully by 30 business days and shall also recommend on how to ensure the deployment and shall monitor the same. However, an extension shall not be ordinarily granted if the scheme's assets are liquid and readily available. Further, in case, funds are not deployed as per asset allocation mentioned above and as per mandated plus extended timeline, the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in SEBI Circular dated February 27, 2025.

## Rebalancing due to Short Term Defensive Consideration:

Such deviations shall normally be for a short term and defensive considerations as per para 1.14.1.2.b. of SEBI Master Circular dated June 27, 2024 and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Further, as per para 2.9 of SEBI Master Circular dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9 of SEBI Master Circular dated June 27, 2024.

#### Investment Strategy of the Scheme

The Scheme will invest in units of actively managed debt oriented and Arbitrage Schemes and the allocations will be actively managed based on the prevalent opportunities and market outlook across asset classes and within the sub-segment. The arbitrage strategy will seek to generate income through arbitrage opportunities in the cash market and the derivatives market. Investments in actively managed debt-oriented schemes will be made based on interest rate outlook, prevailing liquidity, yield curve movements, credit risk and based on the other parameters assessed by the fund management team.

#### Risk Profile of the Scheme

##### Risk Factors of a Fund of Funds Scheme

- The Scheme will invest primarily in units of actively managed debt oriented and Arbitrage schemes. Thus, scheme specific risk factors, performance, risk profile, liquidity and positioning related to the underlying schemes will be applicable.
- Any change in the investment policies or fundamental attributes of Underlying schemes may affect the performance of the Scheme.
- In addition to recurring expenses of the Scheme, the Unit holders shall also bear the applicable expenses of Underlying schemes. Therefore, the returns that the Unit holder of the Scheme may receive shall be substantially impacted or may, at times, be lower than the returns that a Unit holder could obtain by directly investing in Underlying schemes.
- The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures of the underlying schemes. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. In the event of an inordinately large number of redemption requests, or of a restructuring of the Scheme's investment portfolio, these periods may become significant.
- The Portfolio disclosure of the Scheme will be largely limited to units of Underlying Schemes where the Scheme has invested and investments made by the scheme in other instruments. Investors may refer to the portfolios of the relevant underlying schemes for details. Therefore, unit holders may not be able to obtain specific details of the Scheme in respect of portfolio of Underlying Schemes.
- Redemptions by the Scheme from the Underlying Schemes would be subject to applicable exit loads, if any, which may impact performance of the Scheme.
- Switch-out from an Underlying Scheme and Switch in to another Underlying Scheme will be subject to the provisions of applicability of NAV as also the payout and pay-in cycles applicable to redemption / purchase under the relevant schemes. In times of extreme volatility, this may have impact on the NAV of the Scheme, particularly at the time of portfolio rebalancing. Purchase of units in underlying schemes will attract applicable stamp duty.

##### Risk associated with Fixed Income and Money Market Instruments:

##### Interest - Rate Risk

Fixed Income and Money Market Instruments run interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rate falls, the prices increase. The extent of rise or fall in the price is a function of existing coupon, days to maturity, increase or decrease in the level of interest, credit quality, demand and supply. However, in case of T-Bills as credit risk remains zero, their prices are influenced by the movement in interest rates in the financial system. In the case of floating rate instruments, an additional risk could arise because of the changes in the spreads of floating rate instruments. With the increase in the spread of floating rate instruments, the price can fall and with decrease in spread of floating rate instruments, the prices can rise. Moreover, the floating rate instruments having a periodical interest rate reset carry lower interest rate risk compared to a fixed rate debt security. However, in the falling interest rate scenario, the returns on floating rate debt instruments may not be better than those on fixed rate debt instruments.

##### Credit Risk

Credit risk or default risk refers to the risk that the issuer of a fixed income security may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may be affected because of change in the credit rating of the issuer/instrument and the price of a security goes down if the credit rating agency downgrades the rating of the issuer. In case of Government Securities, there is minimal credit risk to that extent. Different types of securities in which the Scheme would invest carry different types and levels of risk. Lower rated securities are more likely to react to developments affecting the market and credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities.

##### Liquidity or Marketability Risk

This refers to the ease with which a security can be sold at or near to its valuation, i.e. yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between bid price and offer price quoted by a dealer. Fixed income securities can be either listed on any stock exchange or may be unlisted. Moreover, the securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these securities is limited by the overall trading volumes and may lead to the Scheme incurring losses till the security is finally sold. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances. Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. While money market instruments are fairly liquid but lack a well-developed secondary market, which may restrict the ability of the Scheme to sell such instruments. Securities which are not quoted on the stock exchange(s) may be illiquid and can carry higher liquidity risk in comparison with securities which are listed on the stock exchange(s) and offer exit option to the investor including put option. The Scheme would invest in the securities which are not listed but offer attractive yields. This may however increase the risk of the portfolio.

##### Re-investment Risk

This refers to the interest rate risk at which the intermediate cash flows received from the securities in the Scheme including maturity proceeds are reinvested. Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the debt security. Consequently, the proceeds may get invested at a lower rate.

#### Risk Factors Associated with repo transaction in Corporate Debt Securities

**Counterparty Risk:** This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. Fund Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis and / or with entities regulated by SEBI/RBI/IRDA. In the event of default by the repo counterparty, the Scheme will have recourse to the corporate debt securities given as collateral to recover the investment by selling the collateral in the market. However, selling of collateral will also be subject to liquidity risk in the market and the Scheme may incur impact cost at the time of selling the collateral.

**Collateral Risk:** Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations or there is downward migration in rating of collateral. Further if the rating of collateral goes below the minimum required rating during the term of repo or collateral becomes ineligible for any reason, counterparty will be expected to substitute the collateral. In case of failure to do so, IAMI / Schemes of the Fund will explore the option for early termination of the trade.

#### Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- Security(ies) held in segregated portfolio may not realize any value.
- Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

For details on risk factors and risk mitigation measures, please refer SID.

In case of specific request received from investors, Mutual Funds shall provide the account statement to the investors within 5 business days from the receipt of such request without any charges.

The AMC shall send first account statement for a new folio separately with all details registered in the folio by way of a physical account statement and/or an e-mail to the investor's registered address / e-mail address not later than five business days from the date of closure of the initial subscription list.

However, if the Unit holder so desires to hold the Units in a dematerialized form at a later date, he will be required to have a beneficiary account with a Depository Participant of the NSDL/CDSL. The Unit holders can convert existing Units in physical mode to dematerialized mode by submitting Conversion Request Form (CRF) along with Statement of Account evidencing the holding of Units to his Depository Participant. The AMC will credit the Units to the Beneficiary Account of Unit holders within two working days of the receipt of request or such other period as may be stipulated from time to time.

When an investor has communicated his/her e-mail address, the Mutual Fund / Registrars are not responsible for email not reaching the investor and for all consequences thereof. The depositories shall intimate the investor on quarterly basis through the SMS mode specifying the email id on which the CAS is being sent. The investor shall from time to time intimate the Mutual Fund / its Registrar and Transfer Agents about any changes in the email address.

#### a) Who have opted to receive CAS through Depositories

- On acceptance of application for subscription, an allotment confirmation specifying the number of Units allotted will be sent by way of e-mail and/or SMS to the applicant's registered e-mail address and/or mobile number within five Business Days from the date of closure of NFO Period.
- Thereafter, for Permanent Account Numbers (PANs) which are common between Depositories & AMCs and in which transaction\* has taken place during the month, a CAS will be dispatched by Depositories to the investors who have opted for delivery via electronic mode (e-CAS) within twelve (12) days from the month end and to investors who have opted for delivery via physical mode within fifteen (15) days from the month end or such other timeline as may be specified by the SEBI from time to time.
- In case of multiple holding, PAN of the first holder and pattern of holding will be considered for dispatching CAS.
- If the statements are presently being dispatched by e-mail either by the Fund or the Depository then CAS will be sent through email. However, the Unit holder will have an option to receive CAS in physical form at the address registered in the Depository system.
- Further, in case there is no transaction in any of the mutual fund folios and demat accounts then half-yearly CAS with holding details will be dispatched by depositories to the investors who have opted for delivery via electronic mode (e-CAS) on or before the eighteenth (18th) day of April and October and to investors who have opted for delivery via physical mode on or before the twenty-first (21st) day of April and October or such other timeline as may be specified by the SEBI from time to time.

Further, CAS issued for the half-year (ended September/ March) shall also provide:

- The amount of actual commission paid by AMC/ Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each Mutual Fund scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMC/Mutual Fund to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
- The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in.
